

Static Cling Vinyl

Easy Installation & Reusability

Static Cling Vinyl is a highly plasticized, calendared, flexible, adhesive-free PVC film laminated to a release liner. Static cling vinyl is an ideal film for point-of-purchase advertising, signage, promotional items, decals and more. It can be removed and re-applied, removes cleanly and leaves no residue behind. Static Cling Vinyl clings tightly to most clean polished surfaces.

Top-Coated static cling vinyl available for Water-Based Flexo, Conventional Offset Litho & HP Indigo.

Non top-coated available for Screen, UV Litho, UV Flexo, Solvent/Eco-Solvent Digital, UV curable & Latex Digital.

Non-Ortho phthalate static cling vinyl available (For Toys & Games).
