

PVC-Free Poly Sheet

30% Post-Consumer Content & Recyclable

PVC-Free Poly Sheet is a blended polyolefin white rigid media that is a great alternative to rigid vinyl and styrene. It can be recycled and reground into reusable product at the manufacturer, or curbside recycled through today's standard recycling stream.

Features

- ▶ Outdoor weather resistant
- ▶ High Temperature Resistance
- ▶ Corona treated for longer shelf life & better ink reception
- ▶ Will not tear or crack
- ▶ Can be made dead opaque at .020
- ▶ Printable using offset lithography, screen and UV curable and Latex digital

Applications

- ▶ Shelf Danglers
- ▶ Hanging Tags
- ▶ Lawn Signage
- ▶ Pump Topper
- ▶ Outdoor Signage
- ▶ Backlit Drive-Thru

Specifications

- ▶ Available in .015 - .060 thickness
- ▶ Opacity Range: 61% - 65% (Using a contact opacity meter)
- ▶ Surface Treat: Corona Treated 2 Sides (Greater than 45 dyne level)
- ▶ Surface Finish: Dull Smooth/Light Texture
- ▶ Tensile Strength @ yield: 4,984 psi (D638 ASTM Method)
