

EcoBlock

Eco-friendly Block-out Banner Media

EcoBlock™ is an environmentally responsible line of Non-PVC films designed for large-format printers utilizing UV-cured inks. EcoBlock™ products are designed and formulated to be environmentally-responsible without compromising quality, performance or functionality.

Unlike many other eco-friendly banner media, EcoBlock is made in the USA and is biodegradable and recyclable. Its high quality construction offers block-out capabilities as well as two-sided printability. This cast, copolymer media offers great dimensional stability and great weather resistance capabilities.

Description

- ▶ 8mil & 13mil thicknesses
- ▶ 54" Wide master roll stock
- ▶ Weatherable – Outdoor/Indoor Use (1 Year Outdoor Use)

Features

- ▶ Block-out – 100% Opacity
- ▶ Two-Sided Printability – (42 to 46 Dynes)
- ▶ Dimensional Stability
- ▶ Shelf Life (@ 73°F, 50% RH): 6 Months +
- ▶ Sewing, Grommeting & Heat Welding compatible

Environmentally Responsible

- ▶ Made in the USA
- ▶ Recyclable - #5
- ▶ Degradable
- ▶ Scrim-Free
- ▶ Packaging is made from 65.1% recycled content
- ▶ PVC-Free - Phthalate Free

Printer Compatibility

- ▶ UV Screen Printing, UV Curable digital IJ & UV Lithography
